Introduction	9
Champions League Group Stage Goals (2022-2023 Season)	10
How did we Compile the Statistics for this Book?	11
Statistics → Tactical Examples → Training Sessions	12
Pitch Zones: Determining Where Goals are Assisted and Scored From	13
Summary of Key Statistical Findings in Our Research	14
Diagram Key & Coaching Format	15

SET PLAY GOALS:

Breakdown of the Type of Set Play Goals Scored

Type of Goal: Open Play and Set Plays	17
Type of Goal: Free Kick or Corner Kick?	18
Set Play Goals: Breakdown of the Type of Set Play Goals Scored	19

Tactical Examples: 1. Corner Kicks (10.9% Of Goals)

Goal Example 1 (FC Barcelona)	21
Goal Example 2 (Napoli)	22

Training Session 1 for Corner Kicks

1. Delivery Options and Signals, Runs, and Player Roles in an Unopposed Corner Kick Practice	24
2. Corner Kick Practice in a 10v7 +GK Functional Practice with Counter Attacks	25
3. Short Corner Kick Variations in an Unopposed Corner Kick Practice	26
4. Short Corner Kick Variations in a 10v7 +GK Functional Practice with Counter Attacks	27

TYPE OF ASSIST:

Breakdown of How Goals are Created

Type of Assist: Breakdown of How Goals are Created	29
--	----

Tactical Examples: 2. Cut Backs (20.0% Of Goals)

Goal Example 1 (Real Madrid)	31
Goal Example 2 (Manchester City)	32

Training Session 2 for Cut Backs

1. 3v1 in Wide Area, Overlapping Full Back Run and Cut Back for Oncoming Runners to Score	34
2. Pass to Winger Out Wide for 1v1 and Cut Back for Oncoming Runners to Score	35
3. Pass to Winger for 1v1 High Up the Flank and Cut Back to Edge of the Box for Shot	36
4. Cut Backs and Finishing in a 6v6 (+2) Four Corner Area Game	37

Tactical Examples: 3. Through Passes (17.1% Of Goals)	38
Goal Example 1 (Bayern Munich)	39
Goal Example 2 (Napoli)	40
Training Session 3 for Through Passes	41
1. 4v4 Possession in Centre Circle + Through Pass to the Forward in a 1v1 (+GK) Situation	42
2. 5 (+1) v 4 in Midfield Zone + Through Pass in Behind for Forward's 1v1 vs GK	43
3. Build-up Play in Defensive Half + Through Pass into Attacking Half in a 4v4 (+2) +GKs Conditioned Game	44
4. Build-up Play in Defensive Half + Through Pass into Attacking Half in a 7v7 +GKs Conditioned Game	45
ZONE OF ASSISTS:	
What Specific Pitch Zones are Assists Played from?	46
Zone of Assists: What Specific Pitch Zone are Assists Played from?	47
Tactical Examples: 4. Goals Assisted from Side of Box (18.4% Of Goals) ..	48
Goal Example 1 (FC Barcelona)	49
Goal Example 2 (Manchester City)	50
Training Session 4 for Goals Assisted from Side of Box	51
1. Double One-Two with Through Pass into Side of Box, Cut Back, and Finish in Pairs	52
2a. Wide Combination, Wing Play into Side of Box, and Cut Back for Finish in a 2v2 Situation.	53
2b. Wide Combination, Midfield Run into Side of Box, and Cut Back for Finish in a 2v2 Situation. .	54
2c. Wide Combination, Third Man Run into Side of Box, and Cut Back for Finish in a 2v2 Situation	55
3. Assists from the Side of Box Areas in a 6v6 (+2) +GKs Conditioned Small Sided Game	56
Tactical Examples: 5. Goals Assisted from Wide Areas (18.4% Of Goals) ..	57
Goal Example 1A (Bayern Munich)	58
Goal Example 1B (PSG)	59
Goal Example 2A (Manchester City)	60
Goal Example 2B (Inter)	61
Training Session 5 for Goals Assisted from Wide Areas	62
1. One-Two to Receive Wide, Deep Cross into Box from Low Wide Zone, Control and Finish	63
2. One-Two, Pass Wide to Winger, Dribble into High Wide Zone, Cross and Finish	64
3. Conditioned 6v6 (+4) +GKs SSG with Diagonally Opposite Goals and Multiple Wide Zones for Assists	65
4. Assists from Wide Areas in a Conditioned 7v7 +GKs SSG with Wide Zones	66
Tactical Examples: 6. Goals Assisted from Centre Space (13.2% Of Goals)	67
Goal Example 1 (Liverpool)	68
Goal Example 2 (PSG)	69

Training Session 6 for Goals Assisted from Centre Space	70
1. Pass, Turn in Centre Space, Through Pass for Run in Behind, and Finish	71
2. Different Passing Options in the Centre Space, Turn, Through Pass in Behind, and Finish	72
3. Play Through the Centre Space in a 4v2 Situation and Finish with 2v1 in the Box	73
4. Goals Assisted from the Centre Space in a 6v6 (+2) +GKs Narrow Conditioned Game	74
Tactical Examples: 7. Goals Assisted from Half Spaces (10.9% Of Goals) ..	75
Goal Example 1 (Manchester City)	76
Goal Example 2 (PSG)	77
Training Session 7 for Goals Assisted from Half Spaces	78
1. Receive in the Half Space and Deliver an Accurate Pass into the Box for a Finish	79
2. Pass Inside, then into the Half Space for a Through Pass into the Box for a Finish	80
3. Goals Assisted from the Half Space Zones in a 4v4 (+2) +GK Conditioned Small Sided Game ...	81
4. Goals Assisted from the Half Space Zones in an 8v8 +GKs Conditioned Game	82
ZONE OF GOALS:	
What Specific Pitch Zones are Goals Scored from?	83
Zone of Goals: What Specific Pitch Zones are Goals Scored from?	84
Tactical Examples: 8. Goals Assisted from Centre of Box (72.7% Of Goals)	85
Goal Example 1A (AC Milan) - Front Centre of Box	86
Goal Example 1B (Bayern Munich) - Front Centre of Box	87
Goal Example 2A (FC Barcelona) - Back Centre of Box	88
Goal Example 2B (AC Milan) - Back Centre of Box	89
Training Session 8A for Goals Scored from FRONT Centre of Box (52.3% of Goals)	90
1. 3 (+1) v 1 Possession in the Centre + Play into the Front Centre of the Box for a 2v1 Finish	91
2. 4v1 Possession in the Centre, Pass Wide, and Score in the Front Centre of the Box with a 1v1 Situation	92
3. Score in the Front Centre of the Box in a Multi-Zone 4v4 (+3) +GKs SSG with Wide Crossing Zones	93
4. Score in the Front Centre of the Box and Quick Changes of Direction in a 7v7 +GKs SSG	94
Training Session 8B for Goals Scored from BACK Centre of Box (20.4% of Goals)	95
1. Attacking Pattern of Play with Finish in Back Centre of Box Zone with Assist or Individual Play	96
2. Attacking Pattern of Play with Finish in Back Centre of Box Zone with Assists from Wide Players	97
3. Score Goals from Back Centre of Box Zone in an 8v8 (+1) +GKs Game with Corner Crossing Zones	98
4. Score Goals from Back Centre of Box Zone in a Conditioned Tactical Game with Corner Zones ..	99

TACTICAL ASPECT:

What Tactics are Used to Score the Most Goals? 100

Tactical Aspect: What Tactics are Used to Score the Most Goals? 101

Tactical Examples: 9. Build-up Play/Attacks (31.6% Of Goals) 103

Goal Example 1/5 (Real Madrid) - Play Through Lines = 25 of 304 Goals Scored (8.2%)..... 104

Goal Example 2/5 (Real Madrid) - Switch of Play = 21 of 304 Goals Scored (6.9%)..... 105

Goal Example 3/5 (Real Madrid) - Attack Wide/Crossing = 21 of 304 Goals Scored (6.9%)..... 106

Goal Example 4/5 (Inter) - Attack Through Centre = 15 of 304 Goals Scored (4.9%)..... 107

Goal Example 5/5 (Liverpool) - Long Pass = 14 of 304 Goals Scored (4.6%)..... 108

Training Session 9A for Play Through Lines & Attack Through Centre (13.1% of Goals) 109

1. Play Through the Lines and Attack Through the Centre Pattern of Play 110

2. Play Through the Lines (Zones) and in Behind in a Dynamic Functional Practice..... 111

3. Attack Through the Centre and Play in Behind in a 5v5 (+2) +GKs Small Sided Game 112

4. Complete 5 Passes and Attack Through the Centre in a Multi-Zone Two-Direction SSG..... 113

Training Session 9B for Attacking Out Wide / Crossing (6.9% of Goals) 114

1. Quick Combination Play Out Wide, One-Two, Overlap Run, Cross, and Finish..... 115

2. Quick Combination Play, 2v1 Out Wide with One-Two and Overlap Run, Cross, and Finish vs Defender..... 116

3. Crossing and Finishing in a Multi-Zone 6v6 (+1) +GKs Conditioned Small Sided Game..... 117

4. Crossing and Finishing in a Multi-Zone 8v8 (+2) +GKs Conditioned Small Sided Game 118

Training Session 9C for Switch of Play & Long Passes (11.5% of Goals) ... 119

1. Long Passes and Switches of Play in a Functional Practice with Cut Back and Finish 120

2. Long Pass into the Receiving Zone and Attacking Combination Play to Finish in the Final Third 121

3. Long Passes into Opposition's Half and Second Ball Attacks Across (6v3 +GK) with 2v1 Zones.. 122

4. Switching Play from Zone to Zone and Creating 2v1 Situations for the Second Ball in a Conditioned Game..... 123

Tactical Examples: 10. Attacking Combination Play in Final Third (19.0% Of Goals) 124

Example 1 (FC Barcelona) - CENTRE 125

Example 2 (Napoli) - WIDE..... 126

Training Session 10A for Attacking Combination Play in Final Third Centre (14.1% of Goals) 127

1. Attacking Combination Play Around the Box, Through Pass, and Finish 128

2. Combination Play and Passing in Behind Defensive Line (Edge of Box) in a Functional 6v3 +GK Practice 129

3. Attacking Combination Play Through the Centre in a 4v4 (+1) +GK 3-Zone Functional Game .. 130

4. Attacking Combination Play Through the Centre in a Two-Direction 8v8 (+2) +GKs 5-Zone Game 131

Training Session 10B for Attacking Combination Play in Final Third Wide (4.9% of Goals) 132

1. Attacking Combination Play Out Wide with Give & Go, Cross, and Finish 133

2. Attacking Combination Play Out Wide in a 4v3 +GK Functional Practice 134

3. Attacking Combination Play Out Wide in a 6v6 (+1) +GKs Game with Vertically Split Zones 135

4. Attacking Combination Play Out Wide in a Conditioned Multi-Zone Game. 136

Tactical Examples: 11. Counter Attacks (20.7% Of Goals) 137

Goal Example 1 (Liverpool): Counter Attack from Low Zone = 14 of 304 Goals Scored (4.6%) 138

Goal Example 2 (AC Milan): Counter Attack from Middle Zone = 34 of 304 Goals Scored (11.2%) . 139

Goal Example 3 (Manchester City) High Press + Counter = 15 of 304 Goals Scored (4.9%). 140

Training Session 11A for Counter Attacks from Low or Middle Zones (15.8% of Goals) 141

1. Defending a Free Kick + Fast Counter Attack from the Low Zone 142

2. Win the Ball and Launch a Fast Counter Attack in a Dynamic 4 (+1) v 3 +GKs Functional Game . . 143

3. Win the Ball in the Defensive Half and Launch a Counter Attack in a 2-Zone 8v6 +GKs Transition Game 144

4. Win the Ball in the Defensive Half and Launch a Counter Attack in a 7v7 (+2) +GKs Conditioned Game 145

Training Session 11B for High Press + Counter (4.9% of Goals) 146

1. 3v1 Pressing High Up the Pitch + Fast Transition to Attack and Score 147

2. 4v2 Pressing High Up the Pitch + Fast Transition to Attack and Score 148

3. 5v5 Pressing High Up the Pitch + Fast Transition to Attack and Score. 149

4. High Press + Counter in a Dynamic 2-Zone Conditioned Transition Game. 150

COMBINED SESSION:

Using the Data to Create Training Sessions for Goal Scoring Efficiency 151

Using the Data to Create Training Sessions for Goal Scoring Efficiency 152

Combined Training Session Example 153

1. Pass to Winger Out Wide for 1v1 and Cut Back for Oncoming Runners to Score. 153

2. Wide Combination, Wing Play into Side of Box, and Cut Back for Finish in a 2v2 Situation. . . . 154

3. Score in the Front Centre of the Box in a Multi-Zone 4v4 (+3) +GKs SSG with Wide Crossing Zones. 155

4. Win the Ball in the Defensive Half and Launch a Counter Attack in a 2-Zone 8v6 +GKs Transition Game 156

MEET THE AUTHOR:

PACO CORDOBÉS (UEFA PRO COACH)

- **UEFA Pro Coach**
- **Degree in Physical Education**
- **Professional Football Coach & Analyst**
- **Owner of Football Coaching Education Company (abfutbol)**
- **Editor for Coaching Books and Magazines**
- **Former Professional Football Player**

Paco Cordobés (UEFA Pro Licence) is a professional football coach, academy football coach, analyst and football coaching book and magazine editor.

This provides Paco with a unique insight into what it takes to reach the elite level and what is required for coach and player development.

Roles and Experience in Football:

- Professional football analyst at Atlético Madrid, where I participated in top signings such as Lucas and Theo Hernández, and Saúl.
- Editor and publisher of 150+ titles of football coaching books and magazines (abfutbol).
- Books include working with World Cup winner Vicente Del Bosque, Champions League winner Rafa Benitez, Europa League winners Unai Emery and Julen Lopetegui, and Premier League winner Manuel Pellegrini.
- Professional football coach at various Spanish academies (U7 to U18).
- Professional football player at A.D. Alcorcón (Spain).
- Professional football analyst at AFC United Eskilstuna in Allsvenskan (Swedish top tier league).
- Runner-up in Swedish Cup (Svenska Cupen) as coach in 2019.

INTRODUCTION

This book is born from the **idea of uniting two very interesting aspects for the coach, the analysis of the real game and the training**. Coming closer to understanding that most goals at the professional level start in training, there is a lot of work behind each goal.

Spectators think that most of the goals we see are the product of the individual quality of the players, of their inspiration. Much of this statement is so, the different decisions of the player are born from his intuition, but although we do not perceive it, another large part comes from previous training work, from practice. A player's decision making can be between two, four, ten decisions, but he can only choose one and it has to be the correct one. The previous correct training work leads to a correct final decision and increases the percentage of success in his actions. **With the real match goal examples and training sessions related to these goals, we hope to inspire the creativity of coaches to design tactical solutions.**

Each way to defend or attack is chosen based on the team you have, as a coach you must use training sessions that best suit your team. A coach can play with a game system, or a style, however, if he does not have the right players, it may be more difficult to achieve a successful result. For example, if you don't have fast players in your attack and you decide to play counter attacking football, everything will be more difficult for your team.

We focus on **Manchester City, Inter, Real Madrid, AC Milan, Bayern Munich, Napoli, Liverpool, PSG, and FC Barcelona.**

They are among the best teams in Europe, and the world. We present goal examples for various different attack types in different sections, all followed by the work behind this attacking style.

To analyse Champions League goals is to understand what modern football is like. In this book, we introduce ourselves into small details of how the best football teams play, and we relate it to a practical part to understand how to train to play like this.

Despite Big Data, GPS and the rest of the spectacular technologies, intelligence and thinking are still the most important part to work on in training. Football is increasingly being studied, analysed, but also thought about, both from the outside with the coaches preparing their matches, and inside the training pitch, with the decision-making of the footballers, which is why the training sessions have to be creative.

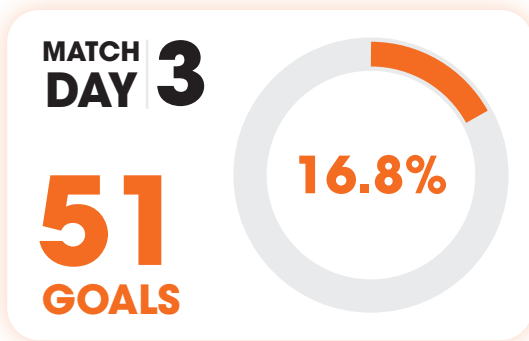

We are not trying to show a magic recipe, that is not our mission. We try to make the coaches who read this book think.

The question is how the best teams and coaches in the world score their goals, and then we present ideas for how to train these methods. In this way, I want coaches who read this book to be inspired to look for solutions for their attacking play. We must understand that goals do not come by chance, but by the way your team trains, **"How you train is how you play. That's how you play, that's how you score."**

I hope coaches enjoy this book because it is full of examples and tactical solutions, and ideas to do other original exercises.

CHAMPIONS LEAGUE GROUP STAGE GOALS (2022-2023 SEASON)

304 Goals in 96 Matches

HOW DID WE COMPILE THE STATISTICS FOR THIS BOOK?

The data and statistics is the key to the book, with all the goals from the group stage of the 2022/23 Champions League viewed and analysed.

They were then classified based on different categories:

- **Type of Goal**
- **Type of Assist**
- **Pitch Zone of Assist**
- **Pitch Zone Goal Was Scored (Finished)**
- **Tactical Aspect for Each Goal Scored**

Based on these premises, different classifications have been made to delve deeper into the following question...

HOW ARE GOALS SCORED AT THE ELITE LEVEL?

The “goal” is the summary of everything that has happened before achieving it. By analysing the goals of some of the best teams in world football, we can discover how these teams attack and why they play like this.

From this, we enter the second large part of this book, which is the full progressive training sessions. As mentioned in the introduction, we do not seek to give magical solutions. The aim is to inspire coaches, to make them think, so that they are clear, that finding the right tasks in training will have an optimal result in the achievements of their team.

It is evident that we have focused on looking at only one major aspect of the game, the attacking phase (and counter attack). We have analysed all the goals thoroughly and classified them because we wanted to study the attacking play of the top teams in Europe, but with small details within the explanations of the tactical examples, we have also mentioned defensive errors in some cases.

Therefore, another of the functions of this book is that it serves to realise that most of the goals that occur in professional football come in part due to defensive errors that must also be worked on.

As you can imagine, watching all the goals from so many teams and then classifying them is an “exhaustive” job, but it was necessary. It is the “scientific” test to know what is happening in modern elite football. Perhaps it would be good if there were more works of this type to delve deeper into the game, and by relation, into the type of training that makes the game better. I believe that this is what we, the authors, the publishers are for - to help coaches in these aspects, to give them clues, inspire them, help them to improve their training, and indirectly improve the game of football as a whole.

STATISTICS → TACTICAL EXAMPLES → TRAINING SESSIONS

1

Statistics

- **Data source from UEFA Champions League Group Stage matches during the 2022/2023 season.** Goal statistics collected by studying each of the 304 goals scored across the 96 matches (6th September - 2nd November 2022).
- Each goal was assessed and put into various categories: Type of goal, type of assist, pitch zone of assist, pitch zone where goal was scored from, and the tactical aspect for each goal scored.

2

Tactical Examples

- **Real match examples of top UEFA Champions League teams scoring a goal** using the relevant data statistic e.g. Goals scored from through passes, or goals scored from centre of box, etc.
- Each action, pass, individual movement with or without the ball, and the positioning of each player on the pitch including their body shape, are presented, along with a full description of the goal.

3

Training Sessions

- The statistical analysis and tactical examples are then used to create full progressive training sessions to coach the specific topic described. There are **16 Training Sessions included in the book which fully outline how to create and score goals.**
- You the coach can then implement the practices into your sessions, so your team can be more efficient in training and score more goals in competitive matches.

PITCH ZONES: DETERMINING WHERE GOALS ARE ASSISTED AND SCORED FROM

- **DH** = Defensive Half
- **LWZ** = Low Wide Zones
- **HS** = Half Spaces
- **CS** = Centre Space
- **HWZ** = High Wide Zones
- **SB** = Side of Box
- **FCB** = Front Centre of Box
- **BCB** = Back Centre of Box

This is how we divided the zones of the pitch before beginning our research.

When analysing each goal, we could then determine which zone the assist was played from, and which zone the goal was scored (finished) from.

This is valuable information because we can determine how and where most goals are created from, and where they are finished from. This can then be applied into your training so that you maximise the efficiency of your team to create chances and score goals.

DIAGRAM KEY & COACHING FORMAT

Tactical Examples

- The goal examples all come from the **UEFA Champions League Group Stage matches during the 2022/2023 season** (6th September - 2nd November 2022).
- Each action, pass, individual movement (with or without the ball) and the positioning of each player on the pitch including their body shape, are presented with a full description of the goal.

Training Sessions Based on Goal Type

- Technical and Functional Practices
- Small Sided Games
- Tactical Conditioned Games
- Name (Objective) and Full Description

TYPE OF ASSIST

Breakdown of How Goals are Created

TYPE OF ASSIST: BREAKDOWN OF HOW GOALS ARE CREATED

Type of Assist for All Goals Scored During the Champions League Group Stages in the 2022-2023 Season (304 Total Goals)

<p>Cut Back</p> <p>61 Goals</p>	<p>N/A</p> <p>57 Goals</p>	<p>Through Pass</p> <p>52 Goals</p>	<p>Simple Pass</p> <p>32 Goals</p>	<p>Corner Kick</p> <p>27 Goals</p>
<p>Deep Cross</p> <p>23 Goals</p>	<p>Wide</p> <p>19 Goals</p>	<p>Lay-off</p> <p>13 Goals</p>	<p>By-line Cross</p> <p>11 Goals</p>	<p>Long Pass</p> <p>9 Goals</p>

* N/A = Penalty/Free kick/Deflection/Rebound

TACTICAL EXAMPLES

2. CUT BACKS (20.0% OF GOALS)

RB Leipzig 3-2 Real Madrid (Vinicius Jr. 44') - 25/10/2022

Goal Example 1 (Real Madrid)

Cut Backs = 61 of 304 Goals Scored (20.0%)

Description

The start of play is wide with the right back **Carvajal**. The attacking midfielder **Asensio** arrives from deep, receives the square pass, and dribbles the ball all the way to the by-line inside the box. From there, he plays an aerial cut back cross for the movement of left winger **Vinicius Jr**, who beats the defender to the ball to score with his head.

Key Aspects

1. **Carvajal's** wide position makes the RB Leipzig defence more open and Real

Madrid have more space for their attack.

2. Another Real Madrid midfielder plays a key role by dragging a defender away from the play and towards the corner to create space for **Asensio** to exploit.
3. Attacking midfielder **Asensio** runs very quickly to take advantage of the created space and he is faster than the defender.
4. The winger **Vinicius Jr** anticipates the defenders' movement, arrives with perfect timing, and takes advantage of his speed in small spaces.

Manchester City 5-0 Copenhagen (Álvarez 76') - 05/10/2022

Goal Example 2 (Manchester City)

Cut Backs = 61 of 304 Goals Scored (20.0%)

Description

Play begins with City's left winger **Grealish** dribbling past 2 defenders trying to win the ball from him. He advances forward with the ball and passes to the right for the well timed run of the right winger **Mahrez**, who then dribbles towards the by-line and plays a cut back pass between 2 defenders for the run of the forward **Álvarez** to score from close range.

Key Aspects

1. The attacking players ahead of **Grealish**

do not stop and offer support, but instead all run forward and drag the opposing defenders away with them. This creates space for **Mahrez** to receive in the box on the right.

2. The forward **Álvarez** takes advantage of the defenders all running back towards their own goal to make his run into the centre of the box almost unnoticed.
3. Then **Grealish** looks and positions his body to the left to deceive the defenders before playing the pass to the right side.

TRAINING SESSION 2

FOR CUT BACKS (20.0% OF GOALS)

SESSION FOR THIS TACTICAL SITUATION (4 PRACTICES)

1. 3v1 in Wide Area, Overlapping Full Back Run and Cut Back for Oncoming Runners to Score

Description

- The Coach starts the practice with a pass to the blue full back (**FB**), who enters the wide area to create a 3v1 situation.
- The 3 blue players combine and then play a pass for the overlapping run of the full back (**FB**) into the high corner area.
- After the pass, the 2 teammates run into box (one to the near post and the other to the far post).
- The full back (**FB**) receives and cuts the ball back for either teammate to score.
- When the phase ends, the practice continues with the next players waiting on the other side.
- The practice is performed on both sides of the pitch alternately.

2. Pass to Winger Out Wide for 1 v 1 and Cut Back for Oncoming Runners to Score

Description

- The Coach starts the practice with a pass to the blue midfielder (**M**), who then passes out wide and in front of the winger (**W**) so they can run onto the ball.
- The red defender (**D**) runs around the mannequin and takes up a defensive position within the corner area.
- The winger (**W**) moves forward with the ball into the corner area and starts a 1v1 action.
- The winger's (**W**) aim is to beat the defender and then play a cut back pass for either the forward (**F**) or the midfielder (**M**), who make runs to the near and far post areas respectively to score.
- After finishing the phase, the 3 participating players return to their starting positions. Alternatively, they can rotate positions.
- When the phase ends, the practice continues with the next players waiting on the other side.
- The practice is performed on both sides of the pitch alternately.

VARIATION

3. Pass to Winger for 1 v 1 High Up the Flank and Cut Back to Edge of the Box for Shot

Description

- The practice starts with the midfielder's (**M**) pass to the full back (**FB**).
- The full back (**FB**) passes to the winger (**W**) in the corner area.
- The red defender (**D**) on that side moves across into the corner area as soon as the winger (**W**) takes his first touch. We now have a 1v1 situation.
- The winger (**W**) aims to beat the defender and then cut the ball back to the edge of the box to a teammate.
- The forward (**F**) and the midfielder (**M**) both time their movements well to receive (one through middle of the 2 cones and one to the right side of them), so the full back (**FB**) has 2 good options.
- The player who performs the cut back has to raise his head and look where his teammates are located to play the ball into the correct position at the right speed.
- When the phase ends, the practice continues with the next players waiting on the other side.

PROGRESSION

4. Cut Backs and Finishing in a 6v6 (+2) Four Corner Area Game

Description

- Using half a full pitch, we mark out 4 corner areas as shown.
- We play a 6v6 (+2) game with one condition to score a goal: **The final pass has to come from a corner area.**
- The practice starts from either GK. The 2 yellow Jokers (**J**) always play with the team in possession.
- The defenders cannot enter the corner areas, they can only try to intercept passes played into them.
- When a goal is scored, restart from the GK of the team that just conceded.
- The teams play short 5-7 minute games. The outside resting team rotate in after each game, and the 2 Joker players must therefore switch roles too.
- The team that scores the most goals after a set number of games wins.

Data-Driven Analysis of Europe's Elite Used to Create 16 Training Sessions

The focus of this innovative book is to reveal how the best teams and coaches in the world score goals, and provide **training sessions for you to coach your team to be more efficient in creating chances and scoring goals.**

All of the **304 Goals from the Group Stage of the 2022/23 Champions League season were viewed and analysed** and then classified into key categories:

- **Type of Goal**
- **Type of Assist**
- **Pitch Zone of Assist**
- **Pitch Zone Where Goals are Scored**
- **Tactical Aspect for Each Goal Scored**

This is invaluable information because **we can determine how and where most goals were created from, and where they are finished from**, which can be applied into your training sessions to maximise the efficiency of your team to score more goals.

We focus on **Manchester City, Inter, Real Madrid, AC Milan, Bayern Munich, Napoli, Liverpool, PSG, and FC Barcelona**, showing real match examples of these top UEFA Champions League teams' goals for the relevant data statistics.

Paco Cordobés is a **UEFA Pro Licence Coach**, Professional Football Analyst, and Editor/Publisher of 150+ football coaching books. He has used the extensive data-driven analysis and tactical examples to create **16 Sessions (63 Practices) to help you maximise your team's ability to score goals.**

Training Session Topic Examples:

- Goals Scored from Cut Backs (20.0%)
- Goals Assisted from Half Spaces (10.9%)
- Goals Scored from Centre of Box (72.7%)
- Goals Scored with Attacking Combination Play in Final Third (19.1%)
- Goals Scored with Counter Attacks (20.7%)
